- **Communication Skills**
- **Machine Learning**
- **UI/UX**
- **Brainstorming**

LANGUAGE

- **English**
- **konkani**
- **Tulu**
- **Kannada**
- **Hindi**

ABOUT ME

I'm a student currently pursuing a degree in Artificial Intelligence and Machine Learning at Canara Engineering College, with a passion for learning and creating. Over time, I've built skills in Full Stack Web Development, Python, Machine Learning, and UI/UX Design. I enjoy brainstorming new ideas and finding practical ways to bring them to life.

I'm really excited about applying what I've learned so far to real-world challenges and being part of innovative projects. I thrive in environments where I can grow, collaborate, and make a difference, and I'm eager to see where this journey takes me.

PROJECTS

PORTFOLIO WEBSITE
My Portfolio website using Html,Css,Javascript

News Web App (React)
Using News API and with React
